6. Innovations and Applications of Data Analytics in Medicinal Chemistry

National Webinar on "Innovations and Applications of Data Analytics in Medicinal Chemistry" organized by Department of Pharmaceutical Chemistry in Association with Nirmala Innovation and Incubation Cell and Elsevier held on 7-05-2021

Resource Person: Dr.Mandal Bodas, Research consultant, REAXYS, ELSEVIER

BROCHURE

The brochure is for a National Webinar organized by the Department of Pharmaceutical Chemistry at Nirmala College of Pharmacy. It is in association with the Institution's Innovation Council (IIC) and Elsevier. The topic is "Innovations and applications of Data analytics in Medicinal chemistry". The resource person is Dr. Mandar Bodas, Research Consultant at Reaxys, Elsevier. The webinar is scheduled for 7th May, 2021 (Friday) at 03:00 PM. The registration link is <https://forms.gle/tEHwj19C2ftJqSn8>. The brochure also mentions that participants will receive an e-Certificate upon successful submission of the feedback form. The organizing committee includes Rev. Sr. K. Sundari (Chief Patron), Rev. Sr. P. Alphonsa (Patron), Prof. Dr. S. K. Abdul Rahaman (Convener), Dr. M. Anjana (Co-Convener), and Dr. Sailendra Kumar Mahanta (President, NIIC).

The world's most prestigious award recognizing young chemists' work

The PhD Prize recognises the research of extraordinary young chemists and celebrates the very best of chemistry research.

No other award impacts the career of a young chemist like the Reaxys PhD Prize

It represents a great opportunity for applicants, their research Group and academic institution to get further visibility in Chemistry community.

2016 will mark the 7th edition of the prize. 2500 submissions have been received from over 400 universities in its 6-years history.

Each year, 45 finalists are selected by a panel of judges out of hundreds of applicants. 3 winners will then be awarded.

The Chair of Reaxys PhD Prize Review Board is a selection of renowned chemistry experts from around the world

All 45 entrants are given an opportunity to present their research at the PhD Prize Symposium

The 3 winners will be selected and announced at the banquet closing the Symposium

Symposium is held in a different but equally prestigious location. In 2015, it was hosted in Hong Kong

All 45 finalists will be rewarded wide range of benefits including lifetime membership to PhD Prize Club, access to the powerful network of 270 talented chemists and free access to Reaxys and Reaxys Medicinal Chemistry

Each of the 3 winners receives an additional cheque for \$2000

Outcome of the programme:

Dr. Bodas presented about understanding of the data analytical applications used in Medicinal Chemistry. He has explained about Data-driven medicinal chemistry (DDMC) and the application of computational (informatics) methods for data integration, representation, analysis and knowledge extraction to enable decision making in medicinal chemistry on the basis of internal and public domain data. He has also stressed upon the drawing the structure, structure–activity relationships (SARs), acid-base and physicochemical properties, and absorption, distribution, metabolism, excretion, and toxicity (ADMET) profiles.

This FDP provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Pharmaceutical Engineering. The current program also deals with the advanced technologies in the field of Nano Particulate dosage forms in Pharmaceutical industries which distends the growth in formulating new medicines thereby promoting healthcare. The FDP is intended to expose the latest machines and technologies used during the different pharmaceutical manufacturing stages, raw materials suppliers, regional manufacturers, contract manufacturers and more. There are many scopes on advanced materials and instruments for future research work. Hence, a FDP is proposed to address key scientific challenges in the field of industrial pharmaceutical engineering. The FDP is intended to uncover and better learning the participants to advancement of pharmaceutical engineering & technologies from the domain experts.</p> <p>THE CONTENTS</p> <p>The topics will inculcate:</p> <ul style="list-style-type: none">Diverse pharmaceutical engineering equipments employed for the nano particulate formulations and novel drug delivery systems.Recent innovations in terms of equipment used for formulations of nano particles.Role of artificial intelligence in modernization of pharmaceutical engineering equipment.Recent advances in equipment used for Pharmaceutical packaging of nano products.Regulatory aspects regarding the designing of equipments.	<p>Nirmala College of Pharmacy (NCPA) is a Catholic Minority Institution established and administered by the Society of Catechist Sisters of St. Ann, Hyderabad, under article 30(1) according to the constitution of India.
